
Professional Development Training for Educators

TECHNOLOGY INTEGRATION WORKSHOPS

Presented by Tina Bossenbroek, WGTE Public Media Educational Services Coordinator, Google Certified Level 1

1. Getting Started on Google Classroom

Learn the basics of setting up a Google classroom, adding students, assigning work and customizing your Google classroom to fit the needs of your class and physical classroom.

2. Google Forms

Learn how to create a Google Form to implement in your classroom for a variety of learning outcomes such as pretest, poll, quiz, assignment or test.

3. Google Slides

Organize your daily lesson with Google Slides. Learn how to create, organize, and present in Google Slides. This is an excellent way to organize each day as well as assist students who were absent to stay current with the class.

4. Drag and Drop Slides

Learn how Google Slides can be used to create a Drag and Drop activity to create an interactive assignment for your students. Use to create a new assignment or use an existing worksheet.

5. Kahoot

Do your students like to play games in class? Learn how to use Kahoot to enhance learning, teaching and studying both synchronously and asynchronously.

6. Getting to Know Your Students

Use Google to create a variety of start of the year activities to get to know your students and for your students to get to know each other while having students learn the basics of Google at the same time.
