OUTREACH INITIATIVES

Establishment of an internship program designed to assist members of the community to acquire skills needed for broadcast employment: The Foundation continued its Internship Program for students, which allows them to learn more about employment opportunities in the broadcasting field. In the past year, we had one intern complete an internship with our station. He was with the station from September 2023 through December 2023.

Provision of training to management level personnel as to methods of ensuring equal employment opportunity and preventing discrimination Our Director of Human Resources, Radio Program Manager, Director of Education, Marketing Communication Director, and Production Manager completed a training on harassment and discrimination prevention through the Corporation for Public Broadcasting. The trainings took place in April 2023.

Participation in other activities designed by the station reasonably calculated to further the goal of disseminating information as to employment opportunities in broadcasting to job candidates who might otherwise be unaware of such opportunities: We partnered with Lourdes University and held a series of workshops for writing students. The workshops aimed to inform students of different career options for writers. Our production department worked with the students to produce a completed show. Students learned how to research, interview, and create visual stories. The students were taught how to utilize camera, audio, lighting, and editing equipment. The monthly workshops were from January 2023-April 2023.

Listing of each upper-level category opening in a job bank or newsletter of media trade groups whose membership includes substantial participation by women and minorities: All positions were posted.
