

## Step by Step Videos on Google Applications for the Classroom

1. Digital Assignments [https://youtu.be/2\\_pWp1GT6uY](https://youtu.be/2_pWp1GT6uY)

Use Google Slides to create digital assignments. This tool will allow your students to use a graphic organizer as a working document.

2. Effective Lesson Organization <https://youtu.be/YV5rv9h-CWA>

Learn an eye appealing, organized way to organize the flow of your lessons on Google Slides.

3. Using Google Jamboard <https://youtu.be/WKuxoL1JmBo>

Develop a sense of community among your students with ice breakers using Google Jamboard.

4. Creating an Assignment Matrix <https://youtu.be/oXjfhIVypbc>

Organize your daily assignments, reminders, and important events on one working document using Google Sheets so parents, students and partner teachers can all work together to keep organized.

5. Create a Morning Check In <https://youtu.be/WvZ8Ny4QdjE>

Using Google Forms create a place where your students can individually make a connection with you about how they are doing. View the results instantaneously and give your students immediate support and feedback.
